A Petrol Pump Software

# PetroCare

Fill the FUEL of Intelligent Software

*A software designed to cover all the aspects of a petrol pump in the new scenerio of modernized service. With its powerpacked modules it will provide you a better control over your day to day Petrol Pump Working.*

## SALES MANAGEMENT

*This section starts with daily SHIFT SHEET & CASH TALLY. It covers the sales of HSD, PETROL, LUBRICANTS etc. on cash or credit basis. It also covers an efficient slip management system giving the option of Credit bills (Vehicle Wise), Cashmemo, Payment outstandings etc. Besides this, there is provision of sales of miscellaneous other items as tyres, tubes etc. alongwith sales of fast food items.*

## DIP & PUMP

*Interfaced with daily sheet, this section gives you complete track & control over Dip Reading & Pump Meter Reading. With an interface on sales & stocks, this system resolves the much needed problem of pump owner that is tracking DIP, METER READING with SALES & PURCHASE giving an effective control of petrol pump to the owner.*

## PURCHASE MANAGEMENT

*Starting from Purchase Order this module tracks the compartment wise Purity, Receipt & Tank stock. It also covers the quantitative discount. The Tank density chart before & after loading is provided to ensure purity & leakage quantity.*

## **INVENTORY CONTROL**

*One of the major problems in petrol pump running is the daily position of tank wise stocks of HSD, MS & other products. This module enables you to maintain your stocks at its best level. Stock ledger, Stock Summary & Stock valuation Reports gives the actual stock position of the fuel.*

## **MIS**

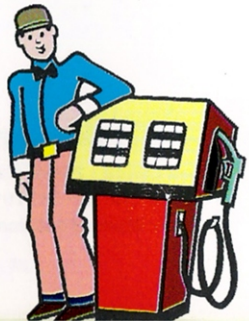

*PetroCare offers you some MIS reports which enables you to run your petroleum business efficiently. One such report is Daily Sheet which includes pump wise net sale, product wise sale (Quantitative & Value wise) with stock position of HSD, MS, LUBRICANTS on a single sheet. Other reports are Day summary, Party wise/Product wise comparison chart, ageing analysis and many more.*

## **ACCOUNTS**

*This module covers Accounting aspect of the company linked with all other modules. This removes duplicacy in working while removing the cost of cross checking and validation. It covers the statutory books as required in double entry system.*
